PROFILE

I am a Frontend Developer with strong expertise in ReactJS, focused on building responsive and user-friendly web applications. I am proficient in HTML5, CSS3, JavaScript, and state management (Redux). I thrive on solving complex challenges with innovative solutions. My passion for cutting-edge web technologies drives my continuous learning journey, enabling me to contribute effectively to collaborative projects. I am enthusiastic about contributing to collaborative projects and bringing creative solutions to life.

EDUCATION

B.Tech (CSE)

AKTU (2024) Grade : 7.54/10

Intermediate

State Board (2019) Grade : 73.8%

High School

State Board (2017) Grade : 82.5%

SKILLS

- Languages :- C, C++, JavaScript
- Frontend :- HTML, CSS, Tailwind, ReactJs, Redux
- Backend :- NodeJs, ExpressJs
- Database :- MongoDB
- Data Structure & Algorithms (DSA) ,Operating System, DBMS

PROJECTS

Youtubez.o (Video Browsing and Streaming Platform) [click here](#) - 🔗

- **Technologies:** ReactJS, Redux
- **Highlights:** Implemented smooth video playback and state management, enhancing user engagement with personalized recommendations.

FoodZone (Recipe Search Result) [Click here](#) - 🔗

- **Description:** A ReactJS web app enabling users to easily search for recipes, providing a user-friendly interface with comprehensive search functionality for recipe discovery and more.

Netflixo (Netflix Clone) [Click here](#) - 🔗

- **Description:** Developed a ReactJS and Redux-based clone of Netflix, replicating key features like user authentication, video playback, and content recommendation algorithms for seamless streaming.

Shoppe (E-Commerce Platform for Clothing) [click here](#) - 🔗

- **Technologies:** ReactJS, Redux, NodeJs, ExpressJs, MongoDB
- **Highlights:** Designed a full-stack shopping app for a seamless user experience, featuring a user-friendly interface and ensuring smooth order placement right after payment.

DailyBlog (Personal Blogging Platform) [click here](#) - 🔗

- **Technologies:** ReactJs, MongoDB, NodeJs, ExpressJs
- **Highlights:** Built a scalable back-end for reliable data storage and ensured efficient state management with ContextAPI.

ACHIEVEMENTS

Solve 650+ questions on various coding platform
like codechef,geeksforgeeks,hackerrank

Scored 2nd rank on college coding competition.
